

AP PROJECTS

ESG AND SDG CONSULTANCY SERVICE

OUR VISION

AP PROJECTS assists companies in their pursuit of sustainability, enabling them to generate value through the implementation of robust ESG strategies and transparent communication.

Our methodology is grounded in a close partnership with clients, comprehending their unique requirements and executing tailored solutions.

AP PROJECTS

- Established in 2021, we provide ESG* consulting services on a global scale.
- We collaborate with corporations, governmental entities, and non-governmental organizations on sustainability strategy and reporting.
- A global clientele spanning various industries and jurisdictions.
- Expertise in ESG transformation, policy formulation, and impact assessment
- Concentrate on corporate training and the development of tools for the formulation of a customized ESG strategy.

ALEXANDRA PELKA

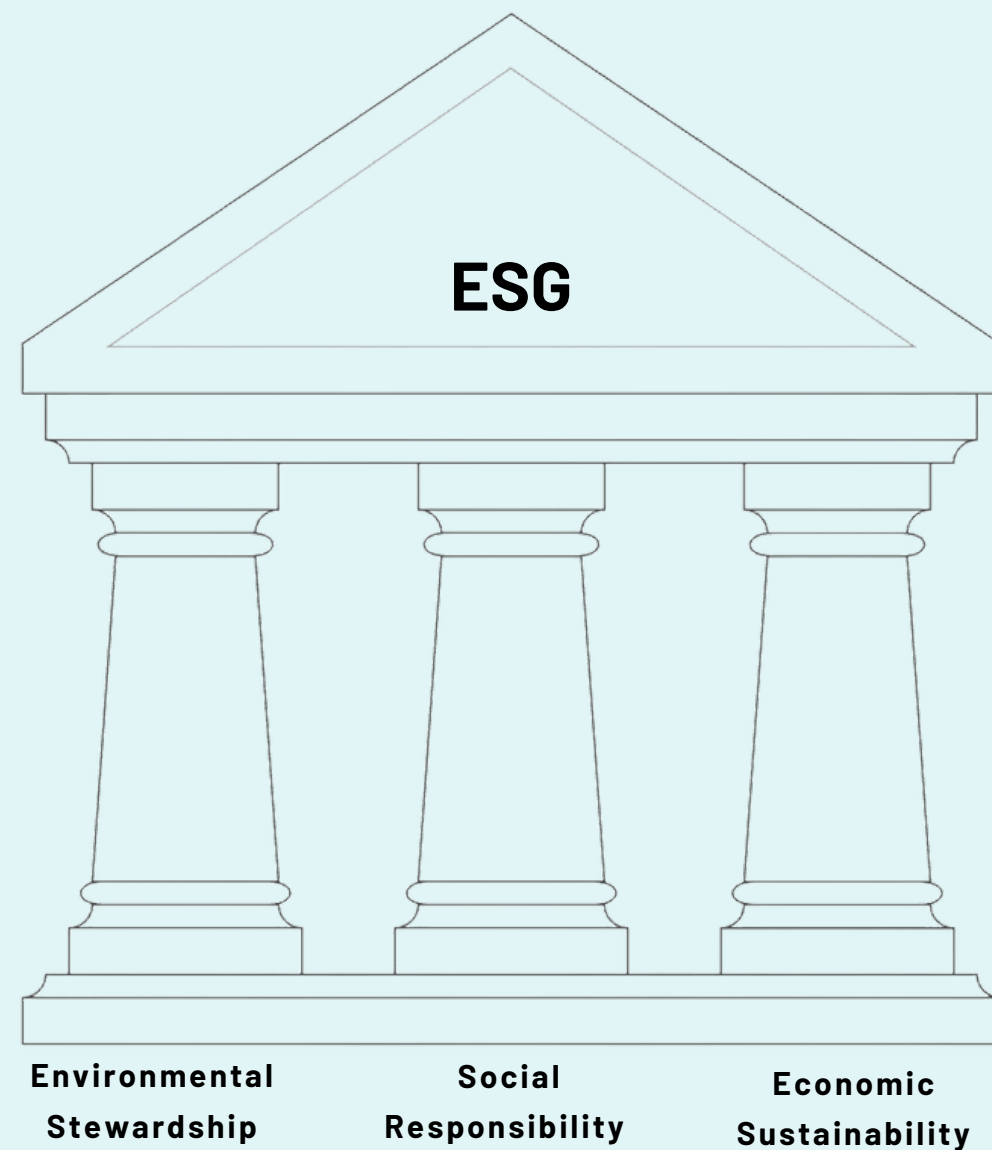

COO and Founder

Alexandra Pelka is the Founder of AP Projects ESG and SDG** Consultancy, internationally recognized for her expertise in green transition, supply chain data collection, and the implementation of reporting standards. As a member of the UNECE expert team on supply chain traceability and transparency, she plays a pivotal role in developing the UN framework for data reporting and compliance applicable across international and cross-industry contexts.

With her educational background in teaching, Alexandra specializes in corporate and institutional training.

SUSTAINABILITY MEANS BALANCE

Environmental, Social and Economic Sustainability

Understand Risks and Opportunities in your company connected to:

- Environmental Risks and Opportunities
- Employee or Supply Chain related Risks and Opportunities
- Governance related Risks and Opportunities

Impact on:

- Corporate development
- Financial position
- Financial performance
- Cashflow
- Access to financing
- Capital costs

TRAINING AND WORKSHOPS

Our training programs integrate theoretical knowledge with practical application through real case studies, interactive exercises, and sophisticated simulations. The "learning by doing" methodology ensures the immediate applicability of the skills acquired within a business context.

INTRODUCTION TO THE WORLD OF "ESG"

A thorough course that examines the fundamentals of ESG and their influence on the corporate sector. This 6-hour program evaluates Environmental, Social, and Governance criteria, the European and international regulatory landscape, and the practical implementation of sustainability principles within organizations.

Duration: 6 hours

"ESG AND ITS IMPLEMENTATION"

A structured approach to incorporating ESG criteria into corporate strategy, encompassing the definition of objectives, the development of a tangible action plan, and the establishment of measurement metrics alongside international best practices for a successful sustainable transformation. (2x8 hours)

Duration: Two days

"COMPREHENSIVE ESG WORKSHOP"

A comprehensive program that encompasses all essential elements of corporate sustainability: from environmental governance to social responsibility, from regulatory compliance to reporting, equipping participants with practical tools and skills to navigate the ESG transition. (3x8 hours)

Duration: Three days

THE CERTIFICATIONS

WE ADVOCATE FOR THE ATTAINMENT OF THE FOLLOWING CERTIFICATIONS

ISO 14001

A standard that assists organizations in enhancing their environmental performance | Environmental Management System, by promoting a more efficient utilization of resources.

SA 8000

A benchmark for social sustainability and equitable labor, encompassing the Universal Declaration of Human Rights, ILO conventions, and national legislation.

EQUIPLANET

A comprehensive standard grounded in ESG principles, along with the GRI and ESRS standards. From a roadmap to the United Nations Sustainable Development Goals.

ISO 9001

Establishes the criteria for an organization's Quality Management System.

GSTC

Developed to incorporate sustainable tourism guidelines and standards from across the globe. Emphasizes sustainable management along with socioeconomic, cultural, and environmental impacts.

ISO 21401

The standard delineates the environmental, social, and economic criteria for the implementation of a sustainability management system within accommodation facilities in the tourism sector.

BCORP

A certification for companies that, alongside profit objectives, uphold the highest standards of social and environmental performance, transparency, and accountability.

ESG REPORTING

The Importance of the ESG Theme – Sustainability

CORPORATE TRAINING

The team needs in-depth training on 360-degree ESG issues based on company objectives.

MATERIALITY ANALYSIS

Business context is key to creating a path to ESG reporting and integrated implementation.

THE ESG STANDARD

The decree of September 6, 2024 requires companies over the next few years to create a non-financial balance sheet (ESG) and know their supply chains.

PROJECT MANAGEMENT

How to use the ESG journey to communicate best practices to your customer and become a sustainable value provider.

BUSINESS TOOLS

The Importance of the ESG Theme – Sustainability

SOFTWARE ESG

The team needs in-depth training on 360-degree ESG issues based on company objectives.

TRAINING AND WORKSHOPS

Business context is key to creating a path to ESG reporting and integrated implementation.

CERTIFICATIONS

MARKETING

How to use the ESG journey to communicate best practices to your customer and become a sustainable value provider.

Legislation and Regulations

CSRD - EU Corporate Sustainability Reporting Directive (2022)

European Directive that establishes the obligation of non-financial reporting for companies. It is being adopted by all European States and will affect large companies as well as small and medium-sized ones in the coming years.

ESPR - EU Ecodesign for Sustainable Products Regulation

European Directive in the final approval phase that will establish the obligation to design finished products requiring the lowest sustainability impact from the raw material to the final disposal phase.

A COMPLEX PANORAMA...

The world of European sustainability is becoming increasingly complex due to the multiplication of rules and directives that are being implemented by sovereign states. It is important for companies to receive expert support in legal matters and their application.

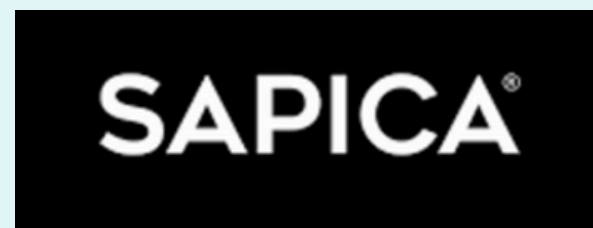

The background of the slide features a silhouette of four people standing on a mountain peak, celebrating with their arms raised against a sunset sky. The scene is captured in black and white, with the figures and the mountain's silhouette standing out against the warm, glowing colors of the sky. The overall mood is one of achievement and success.

Results

At the conclusion of the project, AP PROJECTS provides:

- A dedicated internal team specializing in ESG matters.
- Attaining Targeted Certifications
- A Corporate ESG Report Aligned with International Standards
- A systematic sustainability management framework
- A dynamic communication strategy
- The groundwork for the future trajectory
